Editorial

The Class of 1911 is perhaps the most unified class the Medical School has ever known. The twenty of us who anticipate the end of school life this June are bound by a spirit of friendship, due not merely to adversity to which we as a class have been subjected and the witnessing of many a good friend's departure at the threshold of the course's end, but to an estimate of each other, a real weighing and accepting of a man for his true worth. Indeed, this class might well serve as an example of Yale democracy. All of us unite for serious work to further our own preparation and to add lustre to the department of which we are so proud.

It seems fitting therefore that this class be the first to publish a volume which is distinctly a class book. *THE YEAR BOOK*, of former years, while satisfactory in conception, has rarely been so in reality, either as regards finance, content, or moral support. Each year the editors have enthusiastically assumed the responsibility; it is no fault of theirs that better success has not rewarded them. Realization of such conditions made the present editors, endorsed by the class, plan the publication of this little volume.

Class officers have been abandoned and authority vested in one office,—Secretary—business-like and for unity. Likewise, class assessment and the abandonment of any attempt at financial gain by the editors serves to make each man feel his share in this work. The Secretary plans the publication of subsequent records,—wherefore we call this Volume I of our class history. Class reunions are the accepted plan; men are interested in the future of their fellow-students and are intent upon watching the career of each classmate.

Inspired with such sentiments and such spirit on the part of every member of the class, together with their hearty cooperation, the editors have found their task one of real pleasure. Scant in size and number as economy has dictated this volume and edition to be, we have included the essentials for the preservation of the class history. It is our hope that it may be one more bond to the cementing of friendships which will endure unbroken till the very last of our number shall have laid aside forever the faithfully-worn harness of the noblest profession of them all.

THE EDITORS.

The Faculty

GEORGE BLUMER, M.D.

Dean of the Medical School.

John Slade Ely Professor of the Theory and Practice of Medicine.

M. D., Cooper Medical College, San Francisco, Cal., 1891. Interne, City and County Hospital, San Francisco, 1892-1893. Post-graduate student, 1893; Assistant Surgical Clinic, 1893-1894; Assistant Medical Clinic, 1894-1895, Johns Hopkins Hospital. Assistant Pathology, Johns Hopkins University, 1895-1896. Director of the Bender Hygienic Laboratory, Albany, N. Y., 1896-1903. Adjunct Prof. Pathology and Bacteriology, Albany Med. Coll., 1896-1901, and Professor, 1901-1903. Director, Bureau of Pathology, New York State Department of Health, 1900-1903. Associate Professor of Pathology, Cooper Medical College, San Francisco, 1903-1904. Instructor in Medicine, Medical Department, Univ. of Cal., 1904-1906. Professor of Medicine, Yale Medical School, since 1906. Member, Association of American Physicians; American Association of Pathologists; American Medical Association; Interurban Clinical Club; New Haven City, New Haven County and Connecticut State Medical Societies; American Academy of Medicine; Society for Clinical Investigation.

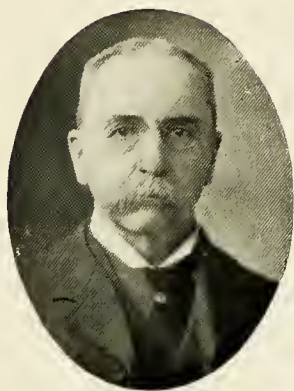

HERBERT EUGENE SMITH, M.D.

Professor of Chemistry, Emeritus.

Ph.B., Yale 1879; M.D., University of Pennsylvania, 1882. Post-graduate student at the University of Heidelberg, 1883. Lecturer on Chemistry, Yale Medical School, 1882-1885; Professor of Chemistry, 1885-1910. Dean of the Yale Medical School, 1885-1910. Chemist to the New Haven Hospital, 1890-1910. Member, New Haven Medical Association; Connecticut Medical Society; American Physiological Society; American Health Association.

WILLIAM HENRY CARMALT, M.D.

*Professor of the Principles and Practice
of Surgery, Emeritus.*

M.D., Coll. of Physicians and Surgeons, New York, N. Y., 1861; Hon. M.A., Yale 1881. Interne St. Luke's Hospital, New York, N. Y., 1861-1862. Attending Physician New York Eye and Ear Infirmary, 1864-1869. Attending Ophthalmological Surgeon Charity Hospital, Blackwell's Island, N. Y., 1866-1869. Post-graduate study in Pathology at Breslau and Strassburg, 1869-1873. Lecturer on Ophthalmology and Otology, Yale, 1876-1879; Professor of Ophthalmology and Otology, Yale, 1879-1881; Professor of the Principles and Practice of Surgery, Yale, 1881-1907. Attending Surgeon, New Haven Hospital, 1877-1908. Consulting Surgeon, New Haven Hospital. Secretary, American Congress of Physicians and Surgeons, since 1888. President, Connecticut Medical Society, 1904-1905. Fellow American Surgical Association. President American Surgical Association. Member American Ophthalmological Soc., American Otolological Society, A.M.A., American Association for the Advancement of Science, Société Internationale de Chirurgie.

THOMAS HUBBARD RUSSELL,
M.D.

Professor of Clinical Surgery and Lecturer on Surgical Anatomy.

Ph.B., Yale, 1872; M.D., Yale, 1875. Interne, New Haven Hospital, 1875. Attending Surgeon, New Haven Hospital, 1878-1908; Consulting Surgeon, New Haven Hospital. Assistant to Professor Marsh on his Paleontological Expedition in 1872. Assistant to Professor Francis Bacon, 1873-1883. Prosector of Surgery to Professor David P. Smith, 1877 until his death in 1879. On Dispensary Staff a number of years. Clinical Lecturer on Surgery, 1880-1881. Lecturer on Genito-Urinary and Venereal Diseases, 1881-1883. Professor of Materia Medica and Therapeutics, 1883-1891. Member, American Association for Advancement of Science; Conn. Academy Arts and Sciences; Amer. Med. Assoc.; New Haven Colony Historical Society; Conn. Med. Soc.; New Haven City and County Med. Associations.

MAX MAILHOUSE, M.D.

Clinical Professor of Neurology.

Ph.B., Yale, 1876; M.D., Yale, 1878. Post-graduate study, College of Physicians and Surgeons, New York, N. Y., 1886. Assistant in Neurology Clinic, College of Physicians, New York, 1887-1900. Attending Physician, New Haven Hospital, since 1899. Attending Physician, New Haven Dispensary. President, Conn. Colony for Epileptics. Member, New Haven Medical Association; Connecticut Medical Association; American Medical Association; New York Neurological Society; New York Academy of Medicine.

OLIVER THOMAS OSBORNE, M.D.

Professor of Materia Medica and Therapeutics and Clinical Professor of Medicine.

M.D., Yale, 1884; M.A. Yale, 1899. Post-graduate study in Germany, 1885. Pres. Yale Medical Alumni Assoc., 1895; Pres. New Haven County Med. Assoc., 1899; ex-Pres. New Haven Med. Assoc.; ex-Pres. Amer. Therapeutic Society; ex-Chairman Section of Materia Medica and Therapeutics A.M.A.; Chairman Med. Bd. Gaylord Farm Assoc.; Third Vice-Pres. Pharmacopoeal Convention, 1910-1920; Member of Ninth Decennial Revision Committee of U. S. P.; Editor of Therapeutic Section of A. M. A.; Member of Council of Pharmacy and Chemistry A. M. A. Member also, New Haven City and County Med. Associations; Conn. Med. Soc.; A. M. A.; Conn. Academy of Arts and Sciences. Author of "Introduction to Materia Medica and Prescription Writing."

HENRY LAWRENCE SWAIN, M.D.

Clinical Professor of Laryngology and Otology.

M.D., Yale, 1884. Postgraduate study, Leipzig, Germany, 1884-1886. Attending Physician New Haven Hospital and Dispensary. Member New Haven City and County Medical Associations; American Medical Association; ex-President and for five years Secretary of American Laryngological Association.

ARTHUR NATHANIEL ALLING,
M.D.

Clinical Professor of Ophthalmology.

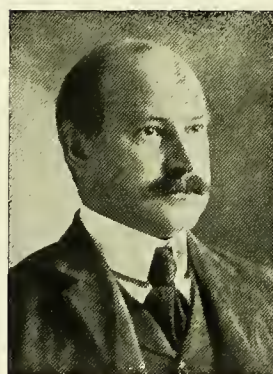

B.A., Yale, 1886; M.D., Coll. of P. and S., New York, 1891. Post-graduate course at New York Postgraduate School and New York Polyclinic. Assistant Surgeon New York Ophthalmic and Aural Institute, 1892-1899; Associate Ophthalmologist New Haven Hospital. Member, New Haven City and County Medical Associations; Conn. Med. Soc.; A. M. A.; N. Y. Ophthal. Soc.; Amer. Ophthal. Soc.; N. Y. Academy of Medicine. Author of "Text-book of Diseases of the Eye."

HARRY BURR FERRIS, M.D.

E. K. Hunt Professor of Anatomy.

B.A., Yale, 1887; M.D., Yale, 1890. Interne New Haven Hospital, 1890-1891. Yale Medical School, Instructor in Anatomy, 1891-1892; Assistant Professor, 1892-1895; Professor of Anatomy since 1895. Member New Haven City and County Med. Associations; Connecticut Med. Soc.; Amer. Assoc. of Anatomists; Amer. Soc. of Zoologists; Assoc. of American Naturalists; Connecticut Academy of Arts and Sciences; Congress of American Physicians and Surgeons.

OTTO GUSTAF RAMSAY, M.D.

Professor of Obstetrics and Gynecology.

M.D., Univ. of Virginia, 1890; M.A., Yale, 1901. Interne Garrett Free Hospital for Children, Baltimore, 1890. Johns Hopkins Hospital, 1891-1894 and 1896-1898. Post-graduate study in Germany. Attending Physician New Haven Hospital. Formerly Associate in Gynecology, Johns Hopkins Medical School. Member Med. Chir. Society of Maryland; New Haven Medical Association; Connecticut Medical Society.

RALPH AUGUSTINE McDON-
NELL, M.D.*Clinical Professor of Dermatology.*

B.A., Yale, 1890; M.D., Yale, 1892. Post-graduate study Universities of Berlin, Vienna and Paris, 1892-1893. Ex-Pres. New Haven County Medical Association; ex-Pres. New Haven Medical Association. Member, Conn. Med. Soc.; Amer. Med. Assoc.; Amer. Academy of Medicine; Conn. Academy of Arts and Sciences.

CHARLES JOSEPH BARTLETT,
M.D.

Professor of Pathology.

B.A., Yale, 1892; M.A., Yale, 1894; M.D., Yale, 1895. Post-graduate study in Leipzig, Germany, 1898, and at Harvard Medical School during the summers of 1895, 1896 and 1897. Assistant Pathologist, New Haven Hospital, 1896-1899; Pathologist, since 1900. Attending Physician, New Haven Hospital. Medical Examiner for the City of New Haven, 1900-1910. Member, American Association of Pathologists and Bacteriologists; New Haven City and County Medical Associations; Connecticut Med. Soc.; Amer. Med. Assoc.; New York Pathological Society; Chairman of Medical Committee, New Haven City Medical Association.

JOSEPH MARSHALL FLINT, M.D.

Professor of the Principles and Practice of Surgery.

B.A., Chicago University, 1895; M.A., Princeton, 1900; M.D., Johns Hopkins, 1900. Assistant in Anatomy, Summer School, Chicago University, 1897; Assistant to the Johns Hopkins Medical Commission to the Philippines, 1899; House Officer, Johns Hopkins Hospital, 1900; Associate in Anatomy, Chicago University, 1900-1901. Post-graduate study with Hix, Spalteholtz, and Trendelenburg, 1900. Professor of Anatomy, Univ. of California, 1900-1901. Post-graduate study in Europe with VonEiselsberg, Bier and Bonn, 1906-1908. Member of Editorial Board Amer. Jour. of Anatomy since 1903. Member Manila Medical Society (Hon.); Morphologische-Physiologische Gessellschaft in Vienna.

YANDELL HENDERSON, PH.D.

Assistant Professor of Physiology.

B.A., Yale, 1895; Ph.D., Yale, 1898. Assistant to Prof. Chittenden, 1898-1899. Served with commission as Ensign on Crusier "Yale" during Spanish War. Studied under Prof. A. Kossel in Marburg, and under Prof. C. Voit in Munich, 1899-1900. Appointed Instructor in Physiology in the Medical Dept. Yale University, 1900, and Assistant Professor in 1903. Member Amer. Physiological Soc.; Soc. of Experimental Biology and Medicine of New York.

WILDER TILESTON, M.D.

Assistant Professor of Medicine.

Born in Concord, Massachusetts, in 1875. A.B., Harvard, 1895; M.D., Harvard Medical School, 1899. Interne, Massachusetts General Hospital on the East Medical Service, 1899-1900. Studied Internal Medicine and Pathology a year and a half in Vienna and Gratz, Austria. Assistant in Clinical Chemistry, and later in Clinical Medicine, Harvard Medical School. Director of the Harvard Summer School of Medicine, 1909; Assistant Visiting Physician, Long Island Hospital, Boston; Consulting Physician, Massachusetts Charitable Eye and Ear Infirmary. Member, Assoc. of Amer. Physiologists; Amer. Soc. for the Advancement of Clinical Research; A. M. A.; Amer. Pediatrics Soc.; Amer. Assoc. of Pathologists and Bacteriologists; Assoc. for the Prevention and Cure of Tuberculosis; Interurban Clinical Club; Conn. Med. Soc.; New Haven Med. Assoc.

RUSSELL HENRY CHITTENDEN,
Ph.D.

Professor of Physiological Chemistry.

Ph.B., Yale, 1875, and Ph.D., 1880; LL.D., Univ. of Toronto, 1903; Sc.D., Univ. of Penn. 1904. Member, National Academy of Sciences, Amer. Physiological Soc.; Pres. Amer. Physiological Soc., 1895-1904; Vice-Pres. Congress of Amer. Physicians and Surgeons; Pres. Amer. Soc. of Biological Chemists, 1907; Pres. Amer. Soc. of Naturalists, 1893; Associate Editor Amer. Jrl. Physiology. Author of "Digestive Proteolysis"; "Studies in Physiological Chemistry"; "Physiological Economy in Nutrition"; "The Nutrition of Man."

CHARLES DICKINSON PHELPS,
M.D.

Instructor in Physical Diagnosis.

B.A., 1889 and M.A., 1897, Amherst; M.D., Coll. of P. and S., New York, 1895. Interne New Haven Hospital, 1895-1896; Sloane Maternity Hospital, 1896. Health Officer, Borough of West Haven, since 1902. Secretary Board of School Visitors for the Town of Orange. Member, New Haven City and County Med. Assoc.; Conn. Med. Soc.; New Haven County Public Health Assoc.

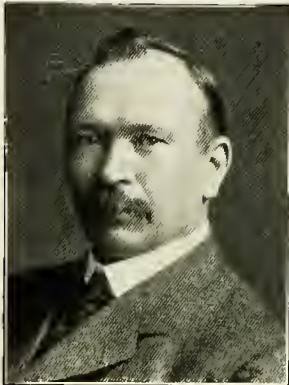

LEONARD CUTLER SANFORD,
M.D.

Instructor in Operative Surgery.

B.A., Yale, 1890; M.D., Yale, 1893. Interne Presbyterian Hospital, New York City, 1896. Attending Surgeon New Haven Hospital. Member New Haven County Medical Society.

ERNST HERMANN ARNOLD,
M.D.

Instructor in Orthopedic Surgery.

M.D., Yale, 1894. Post-graduate study in Leipzig and Halle Universities. Lecturer on Games, Olympian Lectures, St. Louis, 1904. Member, New Haven City and County Medical Societies; Connecticut Medical Society; A. M. A. Author of "Gymnastic Games"; "Manual of Gymnastics for Public Schools"; "Gymnastic Tactics"; "Gymnastic Apparatus Work."

ALLEN ROSS DIEFENDORF, M.D.

Lecturer on Psychiatry.

B.A., Yale, 1894; M.D., Yale, 1896. Interne Worcester Insane Asylum, 1894-1897. Assistant Physician and Pathologist, Conn. Hospital for the Insane. Member, Middlesex County Med. Soc.; Conn. Med. Soc.; Central Med. Soc.; New York Neurological Soc.; Amer. Medico-Psychological Soc. Author of "Clinical Psychiatry."

HARRY MERRIMAN STEELE, M.D.

Instructor in Pediatrics.

Ph.B., Sheffield Scientific School; M.D., Johns Hopkins University, 1902. Post-graduate study, University of Leipzig, Germany, 1897-1898. Assistant in Pediatrics, University and Bellevue Med. Coll., New York, N. Y., 1902-1903. Member, New Haven City and County Med. Associations; Conn. Med. Soc.; A. M. A.

JOEL IVES BUTLER, M.D.

Instructor in Surgery.

Born in Kensington, Conn., March 26, 1878. Ph.B., Sheffield Scientific School, 1897; M.D., Johns Hopkins University, 1901. Interne, Johns Hopkins Hospital, Gynecological Service, 1901-1902, and as Pathologist to the Surgical Service, 1902-1903. Instructor in Anatomy, Johns Hopkins Medical School. Surgical House Officer, Massachusetts General Hospital, 1903-1905. Surgeon, Springfield, Massachusetts, 1905-1909. Member, A. M. A., New Haven Med. Soc.; Conn. Med. Soc.

INTERIOR UNIVERSITY CLINIC

Biography

HARRY LOUIS ABRAMSON.—“Chubby,” “Bunk.” Born, February 14, 1886, Russia. Single.

PRESENT ILLNESS.—Patient complains of inability to grow tall. Duration several years. He is a member of Nu Sigma Nu Fraternity, Sigma Xi, Students' Medical Association Yale University.

PAST HISTORY.—Patient prepared at the St. Joseph (Mo.) High School. After graduation he was employed on the *St. Joseph News-Press* for two years. He won the Ferris Anatomical Prize at the end of his second year. Freshman year he roomed at 35 High Street; second year at 1081 Chapel Street, with Buckley; the last two years he has roomed alone at the University Clinic.

FAMILY HISTORY.—His father is Jacob Abramson, a furniture merchant, and his mother, Marian Abramson.

PHYSICAL EXAMINATION.—Patient is a short, stocky individual with a big mustache. He weighs 130 pounds and is 5 feet 4 inches tall.

DIAGNOSIS.—Hypomicrosoma.

PROGNOSIS.—Patient expects to settle in St. Joseph, Mo. Premanent mail address is 408 South 12th Street, St. Joseph, Mo. Appointment to the Rhode Island Hospital, Providence, R. I.

CHARLES GARDINER BARNUM.—“P. T.,” “Pete.” Born, August, 2, 1883, Durham, N. H. Single.

PRESENT ILLNESS.—Inability to make himself heard. Duration four years. Patient is a member of Phi Beta Kappa, Sigma Xi, Delta Upsilon and Nu Sigma Nu Fraternities, Students' Medical Association Yale University. He is an editor of the *Yale Medical Journal*.

PAST HISTORY.—The patient spent two years at Middlebury (Vt.) High School, and two years at Vermont Academy, Saxtona River, Vt. He received his B.A. from Middlebury College in 1905 and his M.A. in 1907. At Middlebury College he was elected to Phi Beta Kappa and received the highest honors in Chemistry. He was elected to Sigma Xi during his Junior year at Yale. He played on his class football team during his Sophomore year at Middlebury. For two years he was laboratory assistant in Chemistry at the Massachusetts Agricultural College. He worked as a trolley conductor one summer, and for two summers did original work for the Massachusetts Gypsy Moth Commission. Since his entrance to Medical School he has worked at sanitary water analysis for Dr. H. E. Smith, until the past year when he has been doing the same work for the New Haven Water Company. During his four years he has lived with an uncle at 344 Humphrey Street.

FAMILY HISTORY.—His father is Samuel Horace Barnum, a clergyman, and his mother is Susan (Little) Barnum. His father received a B.A. in 1875 and his Divinity degree in 1879, both from Yale. One uncle graduated from the Academical Department in 1879; one cousin in 1854; and his paternal grandfather in 1841.

PHYSICAL EXAMINATION.—Patient is thin, with long arms and beginning high forehead. Weight is 132 pounds; height is 5 feet 5 inches.

DIAGNOSIS.—Sophomania.

PROGNOSIS.—Permanent mail address is Jericho Center, Vermont. Appointment to Roosevelt Hospital, New York City.

LEWIS SAMUEL BOOTH.—“Secondaries.” Born, July 22, 1885, Shelton, Conn. Single.

PRESENT ILLNESS.—Patient complains of being in love. Duration two years. The patient is an editor of the *Yale Medical Journal*; a member of Alpha Chi Rho and Nu Sigma Nu Fraternities; a member of the Student Council during Senior year.

PAST HISTORY.—The patient prepared at Shelton High School and received his B.A. from Yale in 1908. He was on the championship class basketball team while in college and captain of the class baseball team in Medical School. He has been a tutor and a clerk in stores during his summers. He has also sung in a choir before and during his course in Medical School. Freshman year he roomed in Farnam Hall; second year at 152 Dwight Street; Junior year alone and Senior year with Seidensticker at 98 Park Street.

FAMILY HISTORY.—His father is Lewis Walter Booth, employed with the Derby Gas Company, and his mother is Idella (Crofutt) Booth. One cousin received a B.A. degree from Yale in 1904.

PHYSICAL EXAMINATION.—Patient is a happy, continuously smiling individual. Weight is 162 pounds; height is 5 feet 10½ inches.

DIAGNOSIS.—Cardianastrophe.

PROGNOSIS.—Permanent mail address is 76 Howe Street, Shelton, Conn. Appointment to Roosevelt Hospital, New York.

ROBERT EMMETT BUCKLEY.—“Bucko.” Born, December 14, 1888, New Britain, Conn. Single.

PRESENT ILLNESS.—Patient complains of having worked too hard. Duration four years. The patient is a member of Nu Sigma Nu Fraternity.

PAST HISTORY.—He graduated from the New Britain High School. Freshman year he roomed at 217 York Street; second year with Abramson at 1081 Chapel Street; Junior year with Lautman at 35 High Street; Senior year with States at 98 Park Street.

FAMILY HISTORY.—His father is Richard Buckley, and is employed with the North & Judd Manufacturing Company of New Britain.

PHYSICAL EXAMINATION.—Patient appears to be a stylishly-dressed, well-nourished individual. Weight is 157 pounds; height is 5 feet 10 inches.

DIAGNOSIS.—Pharyngoxerosis.

PROGNOSIS.—Patient expects to locate in New York City. Permanent mail address is 183 North Stanley Street, New Britain, Conn. Appointment to St. Mary's Hospital, Brooklyn, N. Y.

GEORGE FRANCIS CAHILL.—“Ramonje.” Born, January 1, 1890, New Haven, Conn. Single.

PRESENT ILLNESS.—Patient complains of loss of strength and difficulty in running. He is a member of Phi Rho Sigma Fraternity; Skull and Sceptre Society; Students' Medical Association Yale University; Class Book Committee.

PAST HISTORY.—This patient prepared at the New Haven High School and the Yale Summer School. He has always roomed at home.

FAMILY HISTORY.—His father is Thomas J. Cahill, employed with the Candee Rubber Company.

PHYSICAL EXAMINATION.—Patient appears thin, light complexioned, wearing glasses. Weight, 163 pounds, 5 feet 10 inches.

DIGNOSIS.—Prothymia.

PROGNOSIS.—Expects to specialize in Surgery. Permanent mail address, 76 Lombard Street, New Haven, Conn. Appointment to Bellevue Hospital, New York.

GENESIS FRANK CARELLI.—“Carrell.” Born August 20, 1889, New Haven, Conn. Single.

PRESENT ILLNESS.—Patient complains of abnormal craving for telephone girls, and the “Wanderlust.”

PAST HISTORY.—The patient prepared at the New Haven High School. He has been a teacher in the evening schools of New Haven and a collector for a cash register concern. He has also been employed as an interpreter. He has lived at home, 79 Asylum Street, during his course.

FAMILY HISTORY.—His father is deceased and his step-father is P. Giangrande, a salesman. His mother is Rose (Lombardi) Giangrande.

PHYSICAL EXAMINATION.—Patient is a dark, very quiet individual. Weight is 140 pounds; height is 5 feet 8¾ inches.

DIAGNOSIS.—Tristimania.

PROGNOSIS.—Permanent mail address is 79 Asylum Street, New Haven, Conn. Appointment to St. Raphael's Hospital, New Haven, Conn.

CHARLES WILLIAMS COMFORT, JR.—“Fusser.” Born, July 3, 1885, Philadelphia, Pa. Single.

PRESENT ILLNESS.—Complains of fondness for nurses’ dances. Duration unknown. He is chairman of the Class Book Committee; member of the Student Council during Senior year; a member of Nu Sigma Nu Fraternity, of Sigma Xi, and the Students’ Medical Association of Yale University.

PAST HISTORY.—He prepared at Norristown, Pa., High School and the Hotchkiss School. He received his B.A. from Yale in 1907. During his summer vacations he has been a hotel clerk and manager. He entered the class at the beginning of Junior year, having dropped out the previous winter to travel with a sick friend. He has been secretary of the New Haven People’s Choral Union for six years. He has roomed alone, first and second years at 144 Lawrence Hall, and the past two years at 98 Park Street.

PAST HISTORY.—His father, Charles Williams Comfort, is deceased. His mother is Mathilda (Bedell) Comfort. One cousin graduated from Yale in 1876.

PHYSICAL EXAMINATION.—Patient is a well-nourished individual. Weight is 165 pounds; height is 5 feet 10½ inches.

DIAGNOSIS.—Hebephrenia.

PROGNOSIS.—Patient intends to specialize either in Obstetrics and Gynecology or in Internal Medicine. Permanent mail address is 500 Stanbridge Street, Norristown, Pa. Appointment to the Western Pennsylvania Hospital, Pittsburg, Pa.

WILLIAM FRANCIS CUNNINGHAM.—“Kid,” “Cunny.” Born, January 29, 1889, Norwich, Conn. Single.

PRESENT ILLNESS.—Patient complains of being mistaken for a freshman, and inability to raise a beard. Duration three years. For the past year he has been an editor of the *Yale Medical Journal*. For the past two years he has been an officer and director of that corporation known as the Yale Medical School Book Agency. He is a member of the Skull and Sceptre Society and of the Phi Rho Sigma Fraternity; also a member of the Students' Medical Association Yale University.

PAST HISTORY.—Patient came here from the Norwich Free Academy. Freshman year he roomed at 53 Prospect Street; the past three years at 371 Crown Street, two years with Mitten, this year alone. He has helped earn his way through school by selling medical books. The patient's habits are respectable and his surroundings fair.

FAMILY HISTORY.—His father was William Francis Cunningham, now deceased, and his mother is Mary (Lloyd) Cunningham.

PHYSICAL EXAMINATION.—The patient is a well-nourished, almost manly individual, with hair of Titian shade. A few freckles adorn his countenance. Weight is 136 pounds; height is 5 feet 8 inches.

DIAGNOSIS.—Hypo-trichiasis barbis.

PROGNOSIS.—Permanent mail address is Norwich, Conn. Appointment to Bellevue Hospital, New York City.

EDWARD BRENDON FARLEY.—“Ed.” Born, October 19, 1884, Derby, Conn. Single.

PRESENT ILLNESS.—Patient complains of feeling of impending homesickness for Medical School.

PAST HISTORY.—The patient prepared at the Derby High School. During his course he has been foreman in a piano plant during the summers, and in 1909 was enumerator of the school children in Derby. First year he roomed with his brother at 121 York Street; second year at 11 College Street; third and fourth years at home.

FAMILY HISTORY.—His father is James C. Farley, an engineer, and his mother is Mary (Kelly) Farley. One brother received a B.A. degree from Yale in 1900 and graduated from the Yale Law School with the class of 1910.

PHYSICAL EXAMINATION.—Patient is a tall, well-nourished individual, wearing glasses and a wing collar. Weight is 191 pounds; height is 6 feet 1 inch.

DIAGNOSIS.—Pseudomnesia.

PROGNOSIS.—Patient intends to locate in Port Chester, N. Y. Permanent mail address is 159 Hawkins Street, Derby, Conn. Appointment to St. Francis' Hospital, Hartford, Conn.

JOHN HENRY WILLIAM FISCHER.—“Dutch.” Born, September 1, 1882, Danbury, Conn. Single.

PRESENT ILLNESS.—Patient complains of not having spent the first two year with the class of 1911. Duration two years. Since his arrival at the Yale Medical School he has been a hard worker and all his time has been taken up with his studies and outside work. He is a member of Alpha Kappa Kappa Fraternity and of the Class Book Committee.

PAST HISTORY.—The patient spent three years at the Concordia Preparatory School. During Freshman year he roomed alone at 293 George Street; second year at Taylor Hall; third year at 107 York Street, with Callender and Kirschbaum of 1912; fourth year at 925 Howard Avenue, with Kirschbaum. He is a licensed pharmacist, and has earned his way through medical school by working as a prescription druggist.

FAMILY HISTORY.—His father was William A. Fischer, a pastor, now deceased; his mother is Mary (Hauschild) Fischer.

PHYSICAL EXAMINATION.—Patient is well-nourished, with thin face, and wears glasses. Weight is 150 pounds; height is 5 feet 7 inches.

DIAGNOSIS.—Haphephebica.

PROGNOSIS.—Patient expects to specialize in Pediatrics. Permanent mail address is 216 White Street, Danbury, Conn. Appointment to St. Raphael's Hospital, New Haven, Conn.

CHARLES THOMAS FLYNN.—“Flimsy.” Born October 3, 1888, New Haven, Conn. Single.

PRESENT ILLNESS.—Patient complains of the disappearance of his old side partner, “Speedy” Walker. Duration one year. The patient is a member of Skull and Sceptre Society and Phi Rho Sigma Fraternity.

PAST HISTORY.—The patient graduated from New Haven High School and spent the year 1906-1907 at Sheffield Scientific School. While at medical school he has worked as a pharmacist. During his four years he has roomed at home, 175 Orchard Street.

FAMILY HISTORY.—His father is Alexander W. Flynn, a druggist; and his mother is Anne (Conway) Flynn. One uncle graduated from the Medical School in 1895.

PHYSICAL EXAMINATION.—Patient is a well-nourished man, with a large quantity of dark auburn hair and cold cyanotic hands. Weight is 135 pounds; height is 5 feet 8½ inches.

DIAGNOSIS.—Paridrosis.

PROGNOSIS.—Patient has not decided on specialty or place of location. Permanent mail address is 175 Orchard Street, New Haven, Conn. Appointment to St. Raphael's Hospital, New Haven, Conn.

SAMUEL CLARK HARVEY.—"Joe." Born, February 12, 1886, Washington, Conn. Single.

PRESENT ILLNESS.—Patient complains of inability to keep thin. He is chairman of the Student Board of the *Yale Medical Journal*, president of the Medical School Y. M. C. A., a member of the Class Honor Committee and the Student Council; a member of Nu Sigma Nu Fraternity, Sigma Xi, The Students' Medical Association Yale University. He is secretary of the class of 1911.

PAST HISTORY.—He spent three years at Woodbury High School and one year at Mt. Hermon, Mass. He graduated from the Sheffield Scientific School in 1907, with two years general honors. During his Junior year he received special honors in Biology. He has been employed as time-keeper for a contractor, a farmer, and analytical chemist. During his second year he was assistant in the Histology Laboratory. Freshman year he roomed at 114 Howe Street, with Byrne, '09 M.S., and Clark, '10 M.S.; second year alone at 120 York Street; Junior year with Little, '10 M.S., and Senior year with Frost, '12 M.S., at 98 Park Street. He has published an article entitled "The Qualitative Estimation of the Chlorides in the Urine," and was a collaborator in an article entitled "White Diarrhoea in Chicks."

FAMILY HISTORY.—His father is Calvin Ferry Harvey, a farmer, and his mother, Ellen Sophia (Clark) Harvey. One cousin graduated from Yale.

PHYSICAL EXAMINATION.—Patient is a very well-nourished, red-cheeked individual. Weight is 205 pounds; height is 5 feet 10 inches.

DIAGNOSIS.—Gynephobia.

PROGNOSIS.—Permanent mail address is Romford, Conn. He expects to specialize in Surgery and will spend the next few years in post-graduate work.

MAURICE FARVISH LAUTMAN.—“Laut,” “Slivers.” Born, April 18, 1896, Meriden, Conn. Single.

PRESENT ILLNESS.—The patient complains of inability to sleep late in the morning. Duration four years. He is a member of the Class Book Committee.

PAST HISTORY.—The patient prepared at the New Britain High School. Freshman year he roomed alone at 54 Sylvan Avenue; second year at 112 Asylum Street; Junior year with Buckley at 35 High Street; Senior year at 165 York Street.

FAMILY HISTORY.—His father was Abel Lautman, now deceased.

PHYSICAL EXAMINATION.—Patient is short individual with mustache and glasses. Weight is 135 pounds; height is 5 feet 5½ inches.

DIAGNOSIS.—Tachyphrasia.

PROGNOSIS.—He intends to specialize in Gastro-intestinal diseases and to locate in New York City. Permanent mail address is 114 Main Street, New Britain, Conn. Appointment to Mount Sinai Hospital, New York City.

MAXWELL LEAR.—“Maxy.” Born, August 2, 1888, Elisavetgrad Russia. Single.

PRESENT ILLNESS.—Patient complains of inability to raise a mustache. Duration three years. Patient is another one of our hard workers. He is an editor of the *Yale Medical Journal*.

PAST HISTORY.—Patient came to this country in 1900. He prepared at the New Haven High School. He has earned his way through school by working as a pharmacist and teaching evening school in New Haven for the past four years. Freshman year he roomed at 307 George Street; second and third years at home, 61 Arch Street; and this year at 363 Crown Street.

FAMILY HISTORY.—His father is Samuel Lear, a grocer, and his mother is Fannie (Freedman) Lear. He has one cousin a graduate of 1904 Law; one a graduate of 1894 Sheff., and one is in 1911 Sheff.

PHYSICAL EXAMINATION.—Patient is thin, dark-complexioned, wears glasses and a slight mustache. Weight is 128 pounds; height is 5 feet 5½ inches.

DIAGNOSIS.—Parahypnosis.

PROGNOSIS.—The patient expects to specialize in either Surgery or Ophthalmology, and expects to locate in Washington, D. C. He expects to do his level best to do honor to his class and Alma Mater. Permanent mail address is 61 Arch Street, New Haven, Conn. Appointment to New Haven Hospital.

LOUIS HENRY LEVY.—“Primary.” Born, April 9, 1883, New Haven, Conn. Single.

PRESENT ILLNESS.—Patient complains of loss of hair. Duration twelve years. The patient is a member of Skull and Sceptre Society and Phi Rho Sigma Fraternity; Students' Medical Association Yale University. He is business manager of the Student Board of the *Yale Medical Journal*; chairman of the Class Honor Committee; member of the Class Book Committee; during Junior year he was secretary of the Student Council.

PAST HISTORY.—Patient prepared at the Hillhouse (New Haven) High School, and received his Ph.B. in 1904 and his M.S. in 1906, both from Yale. He did research work at the Scientific School, 1906-1907. He received special honors in German at Sheff. in 1903; two-year general honors in all subjects in 1904. He was laboratory assistant in Chemistry at Sheff., 1904-1905; taught Chemistry in the New Haven High School, 1905-1907; was chemist for the Norwich (N. Y.) Pharmacal Company, 1907; laboratory assistant in Chemistry at the Medical School, 1907-1908. He was on the Medical School Student Council, 1909-1910, and an editor of the *Yale Medical Journal* that year. He has lived at home throughout his course. He has published an article on “The Electrical Treatment of Chronic Diseases.” The following will be published soon: “Purpura Hemorrhagica—Its Bacteriology and Immunization to It”; “The Microscopical Examination of Ante- and Post-Mortem Wounds.” Also several chemical papers.

FAMILY HISTORY.—His father is Marks Levy, a merchant, and his mother, Dora Levy. Relatives at Yale: cousin, A.B., '04, M.A., '05; cousin, Ph.B., '07, LL.B., '10; cousin, Ph.B., '08; cousin, '12 Sheff.

PHYSICAL EXAMINATION.—Patient is well-nourished, short, stout, with conspicuous forehead. Weight is 152 pounds; height is 5 feet $4\frac{1}{4}$ inches.

DIAGNOSIS.—Hypo-trichiasis capitis.

PROGNOSIS.—Patient intends to specialize in Diseases of the Stomach and to locate in New York City. Permanent address is 64 Congress Avenue, New Haven, Conn. Appointment to Mount Sinai Hospital, New York City.

WILLIAM LEVY—"William X." Born, March 4, 1890, New Haven, Conn. Single.

PRESENT ILLNESS.—The patient complains of inability to keep from betting and inability to make a noise. Duration four years.

PAST HISTORY.—He prepared at the New Haven High School. During his Medical School course he has also been a musician. He has roomed home at 91 Greene Street during the four years.

FAMILY HISTORY.—His father is Abraham Levy, a tailor.

PHYSICAL EXAMINATION.—Patient is a thin, pale, restless individual, with glasses. Weight is 135 pounds; height is 5 feet 10½ inches.

DIAGNOSIS.—"Bulimia."

PROGNOSIS.—Permanent mail address is 91 Greene Street, New Haven, Conn. Appointment to New Haven Hospital.

WALLACE LYMAN ORCUTT.—“Pop.” Born, April 1, 1883, Sutton, Vt. Married.

PRESENT ILLNESS.—Complains of lack of matrimonial interest in the class. He is a member of Alpha Kappa Kappa Fraternity.

PAST HISTORY.—Patient prepared at St. Johnsbury Academy, St. Johnsbury, Vt. He was an instructor before entering the academy and during the year previous to his entering Yale. He has also been principal of a graded school in West Burke, Vt. Freshman year he roomed at 925 Howard Avenue; second year at 336 York Street; Junior year at 29 Elm Street; Senior year at 45 Elm Street.

FAMILY HISTORY.—His father is S. Harrison Orcutt, a farmer, and his mother, Paolina (Kenerson) Orcutt. One brother graduated from the Academic Department in 1907. The patient has the honor of being the only known married man in the class, having been married to Miss Henrietta Finney, November 25, 1907.

PHYSICAL EXAMINATION. Patient is a good-looking modest young man with intermittent moustache. He weighs 178 pounds and is 5 feet 11 inches tall.

DIAGNOSIS.—Monophobia.

PROGNOSIS.—Patient plans to settle in the West. Permanent mail address is West Burke, Vt. Appointment to New Haven Hospital.

RICHARD FRANK SEIDENSTICKER.—“Dick.” Born, July 1, 1884, Meriden, Conn. Single.

PRESENT ILLNESS.—Patient complains of too much speculating in football tickets. Duration four years. He is an editor of the *Yale Medical Journal*, a member of the Advisory Board of the *Yale Daily News*, and of Nu Sigma Nu Fraternity.

PAST HISTORY.—The patient prepared at the Meriden High School and graduated from Yale College in 1907. He states that his business activities are too numerous to mention and that he has taught Sunday Schools. During Freshman year he roomed with Black, '08 M.S., and second year with Wilson, '10 M.S., at 120 York Street; Junior year with Wilson, and this year with Booth at 98 Park Street.

FAMILY HISTORY.—His father is Frederick Robert Seidensticker, a sculptor and designer. His mother is Hattie (Beach) Seidensticker. One cousin graduated from the Medical School in 1910.

PHYSICAL EXAMINATION.—Patient is a tall, dark individual, with glasses and mustache. Weight is 165 pounds; height is 6 feet 1 inch.

DIAGNOSIS.—Choromania.

PROGNOSIS.—Permanent mail address is 109 Lincoln Street, Meriden, Conn. Appointment to King's County Hospital, Brooklyn, N. Y.

PAUL KIBBE SELLEW.—“B. S.” Born, October 10, 1887, Worthington, Mass. Single.

PRESENT ILLNESS.—Patient complains of inability to talk. Duration several years. He is a member of Alpha Kappa Kappa Fraternity.

PAST HISTORY.—He prepared for Yale at Springfield, Mass. He was originally in the class of 1909, but left to teach Histology, Pathology and Bacteriology in New Orleans University, where he instructed for two years. He has also learned the undertaking business. For the past year he has been an interne at Grace Hospital, New Haven. Freshman year he roomed with Gade, '10 M.S., at 905 Howard Avenue; second year at 313 Crown Street; Junior year at 1097 Chapel Street; Senior year at 1418 Chapel Street.

FAMILY HISTORY.—His father, now deceased, was Theodore R. Sellew, a farmer. His mother is Matilda B. Kibbe. He has a brother at Yale in the Graduate School.

PHYSICAL EXAMINATION.—Patient is a healthy, husky individual, with fairly well-developed mustache. He weighs 230 pounds and is 6 feet $\frac{1}{2}$ inch tall.

DIAGNOSIS.—Reserved.

PROGNOSIS.—Permanent mail address is East Longmeadow, Mass.

EUGENE JOHNSON STATES.—“Gene.” Born, August 31, 1882, Springfield, Pa. Single.

PRESENT ILLNESS. Inability to beat the stock-market. Duration two years. Onset sudden with his election to a bank directorship. The patient is a member of Nu Sigma Nu Fraternity.

PAST HISTORY.—He prepared at the Mansfield, Pa., Normal School and spent one summer at Cornell. The year preceding his entrance to the Medical School, he was principal of the Springville, Pa., Township Schools. Freshman year he roomed at 1081 Chapel Street; second and third years at 27 High Street; fourth year at 98 Park Street.

FAMILY HISTORY.—His father is Jacob States, a farmer, and his mother is Susie (Johnson) States.

PHYSICAL EXAMINATION.—Patient is a sturdy individual, weighing 160 pounds and 5 feet 10 inches tall.

DIAGNOSIS.—Dysmorphophobia.

PROGNOSIS.—Permanent mail address is Nicholson, Pa. Appointment as resident pathologist, New Haven Hospital.

YALE MEDICAL SCHOOL

CLASS OF 1911, YALE M. S., FIRST YEAR

First Year

Fifty-three there were of us in 1908, fifty-three with set determination to have the Yale seal stamped upon us. Some were determined, more were set,—back. The Christmas guillotine did deadly work, and at a time when peace and good-will towards all should reign on earth! It saddened us to see so many depart for lands unknown. It was with more sadness we saw many who escaped then suffer in June. So the history of Freshman year is one of death!

In memoriam, we recall jolly, good-natured Flaumen,—of Flaumenco-poea fame. A work of wisdom, that; but the Grim Executioner thought there was wisdom enough in Medicine, and directed that this excessive brilliance be turned to Law. Accompanying Flaumen were Day and Donovan. Poor Day! ambitions e'en beyond Caesar's, and like Caesar slain! Whose capillaries were twelve inches long and for whom Columbus sailed down Hunter's Canal! Eddie Donovan,—“Champ Pug”—of the “chlorotic” voice and snappy clothes, covering a warm heart and neatly-written cribs. And all the others! Ah, me, how Father Time changeth!

And now the dear preceptors of “Fresh” days! “Yesterday-we-were-disgusting” Maryott was a name to conjure with—if you could; his enchanting voice would waft us gently to the Land of Morpheus. And Dean Smith's colored balls; how with these he taught us the meaning of isomerism, polymerism, and how to make the ah! me! no! compounds. And Anatomy Lab.,—the memory of that Cadaver Quartet, whose “hangout” was about the bier of Venus (though they really preferred Adam's!)! Chemistry Lab.,—with the melodrama, “Fighting the Flames,” and the game of “sugar up;” the jollyng of the rosy-cheeked stock-clerk, and his “come-back” when the “unknowns” appeared—unknowns which remained so to all save “Sally” Barnum. Physiology was damnation, and the master a real Mephisto; the idea of trying to make the Fresh *think* Physiology! Contrast the master of the structure of the human body, thinking it best to develop the framework before putting in the engines, and assigning fifteen to sixty pages of Gray! Looking back, we *think* we see method in their torture.

Such were some of the trials and some of the joys of Fresh days. May they always be a part of us and we never more a part of them!

H. L. ABRAMSON.

SECOND YEAR, CLASS 1911

Second Year

Having met the first Faculty onslaught, we came back to school in the fall of 1908 to further increase our knowledge of Anatomy and Physiology and enter the new and unexplored fields of Pharmacology, Pathology and Bacteriology. True, our numbers had been decreased, but we felt we had been the fittest to survive and condescended to speak to a Freshman occasionally.

The first redeeming feature of the year was the comparatively low book expense, which was for most of us quite a relief. Dr. Henderson, an old "Y" man, began to develop material for the pitching staff of the baseball team; the curves "we scientists" soon learned to get out of any old machine were wonderful. Here also "Charlie" Barnum tried out the "kickers" for the football team by his improved knee-jerk apparatus. Later in the course we became real doctors, each with his defined and unassailable position on the operating staff of the Physiological Laboratory.

The bacteriological research and discoveries of Arthur Mitten will long remain in our memories, Arthur having made it his business to inoculate himself with every organism studied and adding any number of new diseases to our present over-filled catalogue. We completed our last dissection and began to treat live ones with our prescriptions, under Dr. Scarborough. About the middle of the year someone discovered two new hairs on Lou Levy's "North Pole," and reported the matter to Dr. Scarborough, who referred all questions regarding hair tonics to Louis.

Not alone in Medicine were we successful, but in the higher arts, Johnnie Message having learned to do bi-manual illustrating, drawing a diagram on the board with his right hand, and painting his face a beautiful pink with the other. In the spring, "Col." Kimzey offered the Chandler Trophy for the best class ball team; and our class, having, as before said, the best "curve artists," won the cup handily. It is now on exhibition in the—but ask Kimzey where it is, I have forgotten for the moment.

Many visits were made to Dr. Bartlett's Ward on the New Haven Hospital grounds! In one way and another, our Sophomore days became a memory, and we faced again those horrible examinations. Not that we feared them; oh, no, not that! They were simply a temporary obstacle, easily (?) surmounted, in our coveted path to the degree of Doctor of Medicine. We saw and conquered, so ending one-half of what we intended to make a successful career in the Yale Medical School.

MAXWELL LEAR.

JUNIOR YEAR

Junior Year

Junior year, with its practical work, was the pleasantest year of our course. Familiar faces were missing when school opened, but with Comfort, Sellow and four ex-1910 men, we numbered thirty-two. To the Dispensary we flocked; thump, thump, thump—descended our mighty fists upon the chests of poor emphysematous patients; "een, tswee, dree" became the class slogan. White-coated, we strutted around the Surgical Clinic, hoping someone might call us Doctor; indeed, Sam Harvey has been taken for a certain Professor—they say it is because he has florid cheeks and wears a felt hat.

Medicine appealed to us as being the most interesting and important course of the year. Our knowledge of prescription-writing and the common-sense use of drugs will be appreciated by our patients. The feminine side of medicine, though admirably presented, failed to make the expected hit—Buckley often reporting unprepared, and Chas. Comfort actually preferring an all-day fire. We dosed through Da Costa, our sleep being disturbed only by the realization of June exams. (but the Wednesday ball games continued very popular). Clinical Microscopy was enlivened with clever wit and gentle sarcasm. We appreciated the "skin game" worked weekly; the few precious moments devoted to furthering our knowledge of "kids"; those recitations on "nerve"; and the efforts made to supply us with clinical material, efforts not always in vain!

Our class distinguished itself in many ways. Harvey conceived and executed the idea of holding group classes for the study of moral and ethical questions confronting us in Medicine; Harvey and Barnum were elected to Sigma Xi; Harvey and L. H. Levy were on the Medical *Journal* Board. Zunder's football song, "Score for Yale," was the biggest hit of the season. Sickness deprived us of Joe Harris' advice on "getting by" without study. The class was nearly wiped out by an epidemic of "black eyes." We were saved, only to be subjected to the "most unkindest cut of all"—June exams.—which school history will record as the greatest human sacrifice ever offered by a Junior class. After the smoke of battle, only twenty responded to the call. Together we joined hands and offered a silent toast to our departed classmates—departed on the first trains for Baltimore or Long Island; and we pledged ourselves to renewed efforts to maintain the honor and dignity of our School and the Class of 1911.

L. S. BOOTH.

SENIOR YEAR

Senior Year

In the chronicle of our last year, we first record the changes which we found on our return after the summer vacation. Dr. Smith no longer occupied the dean's office, but had given over the work to Dr. Blumer; we missed the face of one whom we had come to know as a friend. From our own ranks we missed some of the comrades of the previous year, who have gone to complete their course in other schools; but we mustered twenty veterans, gathered for the last year's work.

We welcomed the clinical work after the three years of preparation. At the dispensary there was always something interesting, for we were novices so often; hardly had we begun to get the run of things before we went to another clinic, where some of the old chronics, perhaps, assisted the instructors in initiating us into a new field of practical medicine. But the red letter days were those when we presented cases before the class. Whether at the dispensary or the hospital they were potent to make us realize how much we may forget; and after our turn in the mill we began to have a greater respect for those things which we did not know.

Like those before us, we have taken our turn on the obstetrical service and learned the joy of being routed out in the early morning to run a race with the stork, only to find, perhaps, that the wary bird would not alight for hours.

With winter, rumors of hospital examinations invaded the place and lent a greater seriousness to study. A good number of our men ventured into the "great city" to try their mettle with men from other schools, and we are proud that nearly one-half of the class have first-rate appointments in New York.

As senior year draws to its close, let us recall the purpose which lead us to spend four years here. We came primarily to learn what we might of medicine to equip ourselves to earn a livelihood and the better to fill a place in the world. But these years have not meant what they might, if our horizon has not widened, and if we have not come to feel that in medicine we touch shoulders with brothers in many other fields of work. As we leave the school may we live worthy of our training and strive to perfect ourselves in our chosen calling, which is of all most humane and honorable.

FARNAM AMPHITHEATRE, NEW HAVEN HOSPITAL

YALE UNIVERSITY CLINIC

YALE UNIVERSITY DEPARTMENT OF MEDICINE

The Yale Medical School was chartered in 1810, and is the oldest of the professional departments of Yale University.

The course leading to the degree of Doctor of Medicine is a graded one, extending over four years of thirty-four weeks each, *exclusive of vacations*. The curriculum consists of lectures supplemented by recitations from assigned reading, combined with thorough individual personal instruction in Laboratories and Clinics.

LABORATORY INSTRUCTION

The School has thoroughly equipped laboratories of Anatomy, Histology, Physiology, Pathology, Bacteriology and Clinical Medicine and Surgery.

CLINICAL INSTRUCTION

The Yale University Clinic, which contains the New Haven Dispensary, is a large, thoroughly equipped building having all the most modern facilities for the treatment of out-patients. It treats over 17,000 patients annually. The work is divided between the members of the senior class, who serve in rotation for four weeks upon each of the clinics, not more than four men being assigned to one class, so that each student has himself each day several patients to treat under the direction of the clinical assistants, of whom there are usually two to each clinic. There are separate clinics for Medicine, Surgery, Gynecology, Obstetrics, Neurology, Orthopedics, Ophthalmology, Laryngology and Otology, Pediatrics and Dermatology, in which in the course of the year every opportunity is given to diagnose and treat the usual manifestations of disease under conditions closely simulating office practice.

The New Haven Hospital, containing about two hundred beds, is on the next block to the University Clinic and instruction is given here by frequent clinics in the wards and theatres.

For further information concerning the requirements for matriculation and graduation, tuition fees, prizes and details of the course, apply to
